| Academic Environment

The most intense academic environment in the world. Everyone here is brilliant. The workload is legendary ('IHTFP' = I Hate This F***ing Place, but also I Have Truly Found Paradise). Research is world-changing. Collaboration is the culture — 'mens et manus' (mind and hand).

| Student Life

Nerdy and proud. MIT students build robots for fun and throw piano-dropping parties. Cambridge is a college town — Harvard is next door. Boston is a short subway ride. The Indian community is small but incredibly tight.
